

BlueTherm One LE Bluetooth Thermometer

Temperature

Bluetooth

The BlueTherm One LE Bluetooth thermometer transmits temperature data to your iOS, Android or Bluetooth® wireless device via a secure connection of up to 50 metres. This thermometer is specifically designed to eliminate the need for wires which often cause many traditional probes to break or fail.

Each BlueTherm LE thermometer is housed in an ergonomic case and incorporates a large LCD and a single LED which indicates Bluetooth® connection status. A wide range of K thermocouple probes can be connected to the BlueTherm One.

The BlueTherm One offers a single temperature probe socket.

Specification			
Range:	-199.9 to 1372 °C	Dimensions:	34 x 66 x 109 mm
Resolution:	0.1 °C/°F to 999.9	Weight:	165 grams
Accuracy:	±0.4°C ±0.1% of readin	Case material:	ABS plastic with Biomaster anti-bacterial additive
Battery:	1 x AA	Country of manufacture:	United Kingdom
Battery life:	3000 hours	Guarantee:	Two years
Sensor type:	K thermocouple	Measurement scale:	Celsius/Fahrenheit
Display:	12mm LCD	OS:	Android, Windows CE mobile, IOS or Bluetooth
Backlight:	Yes
